LAFAYETTE STOCK AT THE WORLD'S FAIR. Scotch and Irish Whisky of fine horses, cattle, hogs and sheep are talking of putting stock on exhibition in the live stock shows at the Chicago World's Fair. The following paragraph will be of

interest to this class: The dates for holding the various live stock shows during the exposition have been decided upon by the national commission. The period devoted to the exhibition of animals for awards in the folhibition of animals for awards in the fol-lowing divisions for live stock will be as follows: Cattle, September 11 to Septem-ber 27; horses, jacks and jennets, August 24 to September 27; sheep and swine, Octo-ber 2 to October 14; kennel show or dogs, June 12 to June 17; poultry, pigeons, pet stock, etc., October 18 to October 30. Ex-hibitors of horses and cattle must accom-nany their amolication with written evihibitors of horses and cattle must accompany their application with written evidence as to the pedigree of the animal offered for entry. This written evidence implies a description or pedigree in the standard live stock record books. Animals unregistered, but which have some peculiar hist rical value, may be exhibited, but not compete for any prizes or medals which may be offered.

A Mother's Mistake. Mothers respectly make a mistake in neglecting the cough of a child. A Fort Wayne, Ind., lady writes: My little daughter 6 years old had a severe cough but as it was nothing unusual t thought nothing of it, and allowed it fo run on for 4 or 5 weeks, when it became so obstinate she began losing flesh. I called in a physician who treated her three weeks without benefit. A neighbor insisted upon my arying Ballard's Horehound Syrup; it relieved her from the first flose and she began gaining flesh rapidly, when we had used two bottless her cough had entirely disappeared. I would not be without it. It does not constitute my children. Ballard's Horehound Syrup is free from opintes. It's the most soothing throat and lang medicine in the world. Price 5ac and 51. HEADQUARTERS, 2D ARMY CORPS, M. S. G., BLACKFOOT (IN THE FIELD), BOONE COUNTY, July 21, 1861. General Sterling Price, Commanding M. S. G.
GENERAL.—Pursuant to the plan communicated in my letter of the 6th inst., from Camp Hope, in Monroe county, I made a demonstration against the enemy by an attempt to capture a detachment, which he had sent out against me from which he had sent out against me from Monroe Station, but unfortunately the over-zealous precipitancy of four scouts, which I had thrown out to obstruct his movements, in firing upon him, defeated my plans and enabled him to make good his retreat and get within his fortifications, with but the loss of a single person, Capt. McAllister. After tearing up the railroad track and the destruction of two bridges, I endeavored to profit by the ap-parent enthusiasm which prevailed to draw some of the ment who flocked in great numbers to my support), from the too hear proximity of their homes, to a more

I lost no time in making such prepara-ion as was possible and successfully am-ushed the advancing force the next morning. The enemy were commanded by Col. John McNeil, and consisted chiefly, if not entirely, of Home Guards, organiz-ed at St. Louis. Owing to the raw mate-rial, which constituted my force, I was unable to inflict any serious punishment or injury upon the enemy, the only com-censation for which is in the fact that suffered none from him. As I intended nothing more than a demonstration having knowledge of a large force conhaving knowledge of a large force con-centrating upon me, I was quite content with the result, as I intended scattering whatever force I might have, within an hour after the engagement, be the result as it might. After the affair at Fulton I withdrew to this place, accompanied by the members of my immediate staff and three privates, to be used as couriers. Of this force Brigadier-General John Pope is in command with head-quarters at St. Charles. The force is well distributed to prevent organization in the field. The ultimate destiny of this force s undoubtedly to reinforce Gen. Lyon at springfield before he engages you.

The most valuable service which I can of silence. erform is to hold as much of this force a possible in North Missouri, until you shall have met and defeated Lyon. I shall devote myself exclusively to this object. now recognize to be impracticable.
In connection I hope you will excuse me if I submit a few suggestions upon logistics. Although the governor in his proclamation calling for 50,000 men, affirms "that the state of Missouri is still one of the United States, etc.," the events of the current month, since the proclamation indicates that her relation to the union will be altered, if it is not, in effect, already severed. I may perhaps effect, already severed. I may perhaps have over estimated, but certainly have never under estimated the dimensions of our present troubles, and I deem it a duty to consider the policy of military opera-tions in reference to the possible, if not probable, necessities of a long and ex-hausting war, and the ultimate with-drawal of our state from the union. The political differences between the North and South can never be settled by a defensive war on the part of the South. The North initiates the war for a purpose, and peace can only be obtained. peace can only be obtained by conquering it, the one section from the other. The outh to prevail must successfully invade the North and inflict such distress as to compel acquiescence to terms, which it seems moral sussion fails to obtain. North Missouri must form the base for the movement of any army into any of the western states. It is impossible for a gard to the benefit your Bradycrotine and the movement of the base of the base for the movement of the base of Southern army to bring with it the nec-essary supplies for such an advance movement, and the abundance which is found child she has been subject to the most times. in this region should be garnered and dreadful headaches, usually several economized for future use.
